About us

M2P is a global management consulting firm that transforms businesses by accelerating growth through an integrated offering of professional services, technology services, and innovative ventures.

We deliver projects for our clients around the world with a focus on Travel, Transportation and Logistics. With our holistic approach and view on processes, combined with innovative ideas and industry expertise, we deliver solutions and approaches throughout the entire project lifecycle.

For our office in Frankfurt am Main, we are looking for motivated, talented individuals who would like to join our team as an

IT Consultant (f/m/d)

About you

- You have a university degree in the field of business informatics, computer science, physics or mathematics, preferably with a focus on software engineering
- You have more than 3 years of professional experience as an IT consultant/IT system analyst as well as several years of professional experience in the areas of software development and architecture
- You ideally have practical experience in the field of aviation (airport or crew management or air cargo) or transport and logistics including cargo
- You have experience in the area of requirements analysis, modelling with UML and with programming languages such as Java, Python or C++
- You have solid experience in working with databases such as SQL and you are comfortable with Azure, AWS or GCP
- You are willing to familiarise yourself with current trends and (state-of-the-art) technologies
- You are a team player, conceptual thinking, and have strong communication skills
- You have a solution-oriented, reliable and independent way of working
- You have a general willingness to travel (after the Corona pandemic)
- You are fluent in written and spoken German and English

We are looking forward to your application:

Your mission

Support our team in Frankfurt and work on exciting projects within the travel, transport and logistics industry:

- Project management and overall control, coordination and monitoring of complex projects in the travel, transport and logistics environment
- Maximizing efficiency by analyzing and (re)defining our customers' processes
- Evaluating data and significant KPIs for meaningful reporting
- Track project status and regularly report project results to various stakeholders at all levels (team, client, steering committee, etc.)
- Implement new solutions after assessing the requirements of all stakeholders
- Independent processing of work packages within the projects
- Developing concepts and strategies with our customers
- Leading meetings on operational and management level
- Conducting workshops with our customers to understand their needs
- Immersion in operational processes - hands-on mentality is required here
- Working on-site with customers both domestically and internationally
- Striving for high quality and actively contributing to the success of projects
- Attend internal and external trainings and events
- Participation in internal study groups and sharing of industry know-how
- Be creative and willing to define new, innovative offers

What you can expect

Be part of a great team that is passionate about the travel, transport and logistics industry. M2P offers a dynamic atmosphere, collegial culture, and partner-track careers. We do not only provide the opportunity to work on leading edge initiatives with our clients, but the opportunity to contribute to and steer the development of our firm. With M2P, professionals expand on their existing knowledge, skills, and experience no matter where they are in their career.
