Your mission

In our team you will work on exciting mobility and IT implementation projects, and you will be entrusted with the following tasks:

- Design and further development of training and communication measures
- Ensuring the ability to integrate into an existing process and infrastructure landscape, including compliance with relevant guidelines and processes
- Definition and monitoring of key performance indicators, as well as conception and implementation of suitable measures for their measurement and control of project progress
- Optimization of the rollout according to lean principles through detailed work preparation and coordination in the process flow
- Execution of resource planning and coordination
- Ensuring and monitoring cost, schedule and quality targets according to internal and external customer-specific requirements
- Accompanying communication activities during roll-out and implementation
- Conduct presentations of project status and project issues in steering groups, including all management level
- Creation and implementation of a change and communication concept for implementation support

What you can expect

As a Senior Consultant Change and Communication Management (f/m/d) you will contribute to the success of key players in the travel, transport and logistics industry by maximizing efficiency, evaluating data, optimizing processes and implementing new solutions. You will drive our clients' transformation and digitalization. In our dynamic team you will be responsible for different project work packages that include leading of workshops, developing concepts and strategies, and to execute these with our clients on site.

If this position appeals to you, but you still lack one or two of the required references, we would be pleased to receive your application as a Consultant Change and Communication Management. In this position, you have great opportunities to develop and take on the role of Senior Consultant in a timely manner.
